

As a financial supporter of Air 1, I feel making this change would be in poor taste. Air 1 serves the community in which i live with encouraging uplifting programing for the entire family. It is a station that allows our entirefamily to listen to it without worring about what may come across the air waves. Air 1 is a family station that srevs the community with commercial free music that does not need to be on a delay because the message is clear, and that is a message of Christ's love. If the choice it made to reformat then you will be forcing the continuation of the de-moralization of our youth and our society as a whole. If Air 1 as well as other starions like it are taken off the air, our country will see a turn for the worst in the programing of national radio! Thank you!
